

Logic+

High efficiency combination boiler

Representing the next generation in heating design, our A-rated Logic+ boilers offer state-of-the-art technology in a practical, compact unit that fits easily into any standard kitchen cupboard*.

Features and benefits of Logic+ combi

- SEDBUK band 'A' fuel efficiency rating to lower emissions and reduce heating bills
- 5 year parts and labour warranty for complete peace of mind
- Compact and stylish 'cupboard fit' design with concealed connections
- User-friendly control panel to enable easy operation (including DHW temperature control)
- Wide range of outputs to suit all homes, including 24kW, 30kW and 35kW
- Choice of optional timers and room thermostats
- Frost protection to guard against freezing outdoor temperatures
- Enhanced product styling
- Enhanced remote capability for maximum flexibility

*Please check kitchen cupboard prior to installation

Replacing your old boiler with an A-rated boiler from Ideal is a great way to reduce your heating bills and help the environment. Our 'A' rated high efficiency combis are over 90% efficient and could save you around £235 every year on running costs**, in addition to lowering your carbon footprint. With the launch of the Boiler Scrapage Scheme and rising fuel costs, there has never been a better time to upgrade your G-rated boiler.
